Voxa

Just say it.
Voxa handles it.

A voice-first AI assistant for real estate agents.

iPhone + iPad

Powered by AI

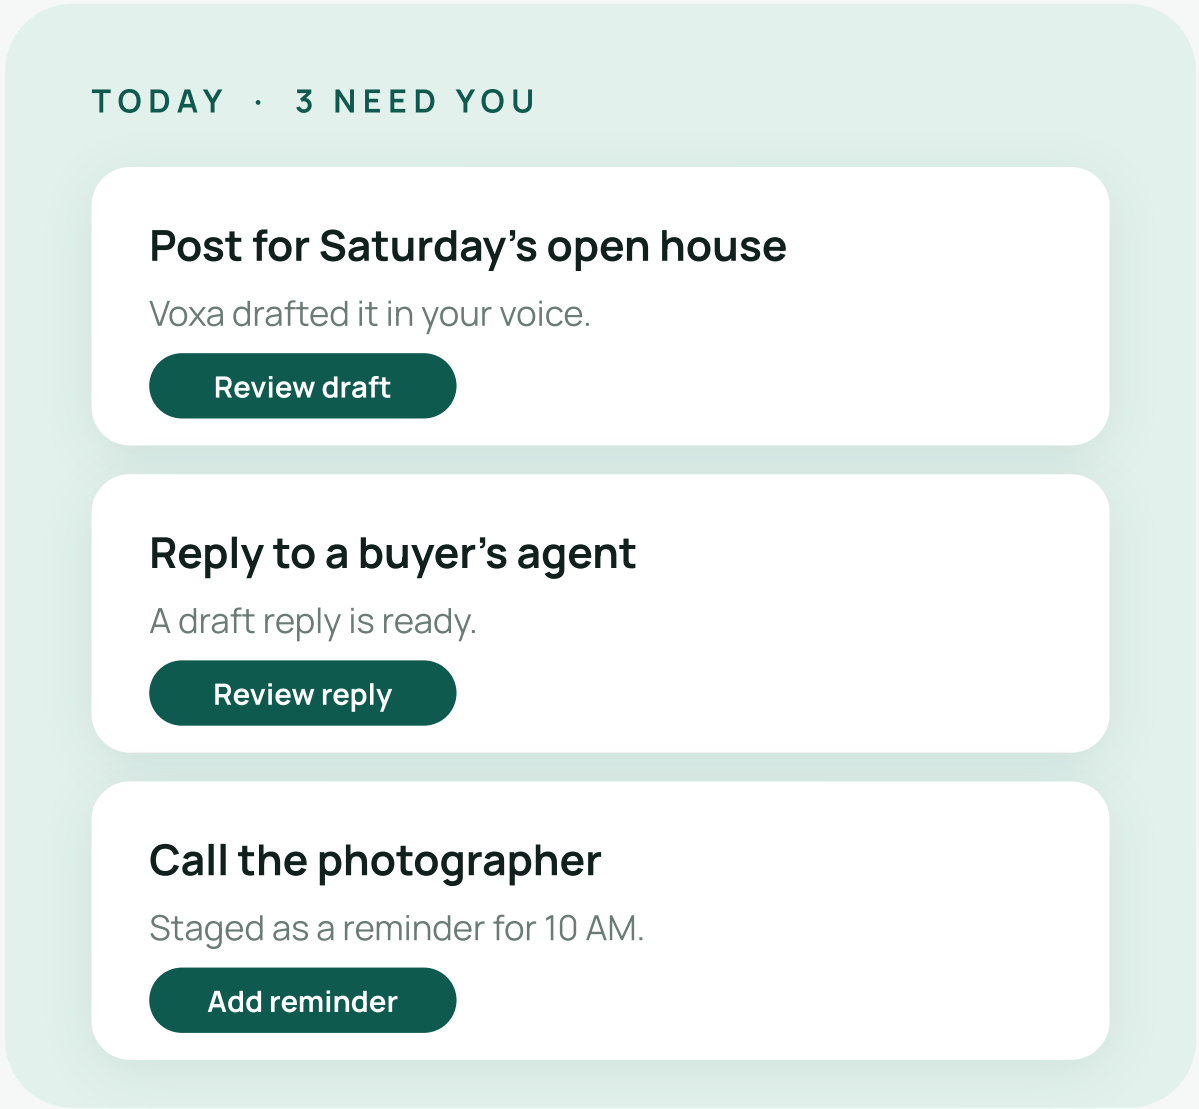

THE PROBLEM

You're a realtor, not a marketing department.

The work that needs you is buried across texts, email, calendar and social.

1	Building and sticking to a marketing plan	Plan + social
2	Daily posts	Social
3	Open house prep and follow-up	Calendar + texts
4	Email replies	Email
5	Staying in front of past clients	Everywhere

THE IDEA

Voxa puts in front of you only what needs you today.

Voxa drafts. You decide.

✓ Nothing sends or posts without your tap.

TRUSTED FRIEND

Talk it through.

- ✓ **Voxa speaks first**

  It opens with 2–3 ideas for your day.

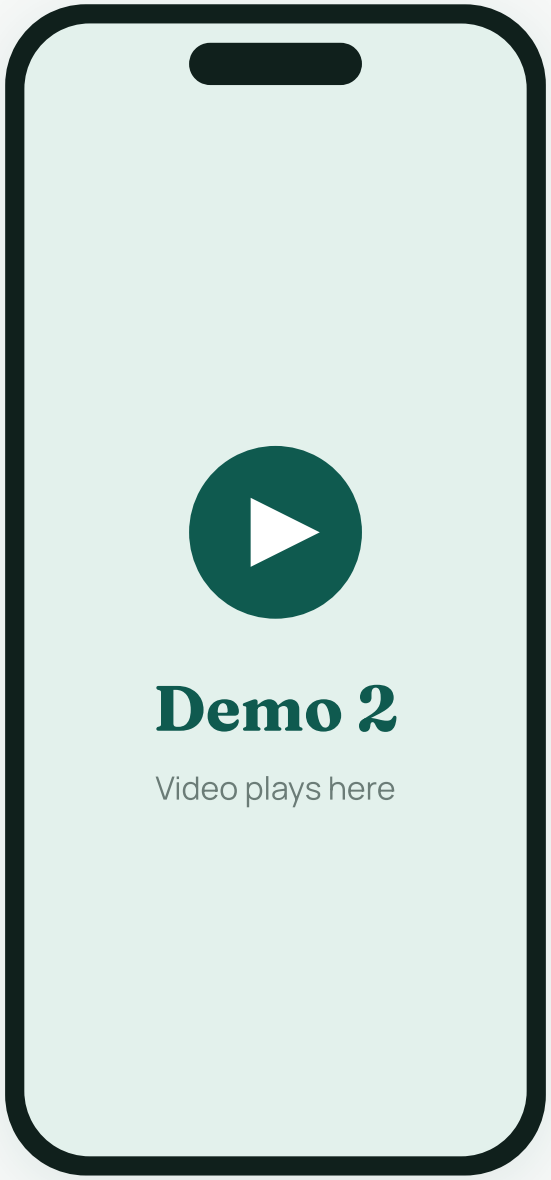

- ✓ **It pushes back honestly**

  If a plan won't work, it says so.

- ✓ **It stages the details**

  Calendar events and reminders you add with one tap, with Undo.

MARKETING

A 90-day marketing plan, and posts in your voice.

1. **Goals interview** — A short conversation about what you want.
2. **Your 90-day plan** — Voxa builds the plan from your answers.
3. **Learns your voice** — It reads your past posts to sound like you.
4. **Drafts with sources** — Your photos, plus live research sources.

✓ Posting is always your tap.

EMAIL

Your inbox, by voice.

Ask what came in. Voxa sorts it out.

#

Tagged to the listing

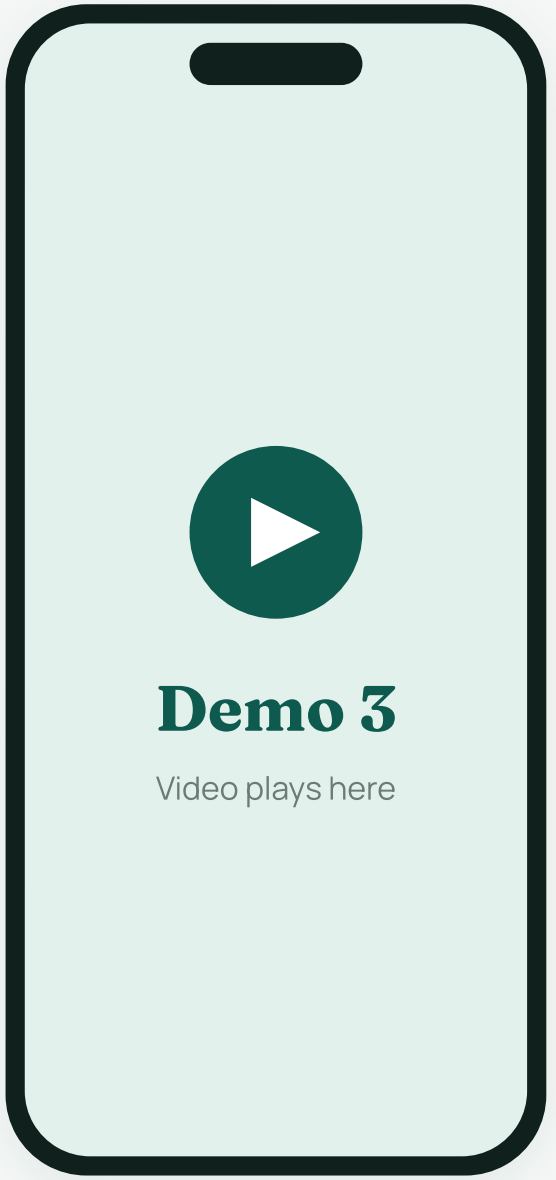

Voxa tags each email to the listing it belongs to.

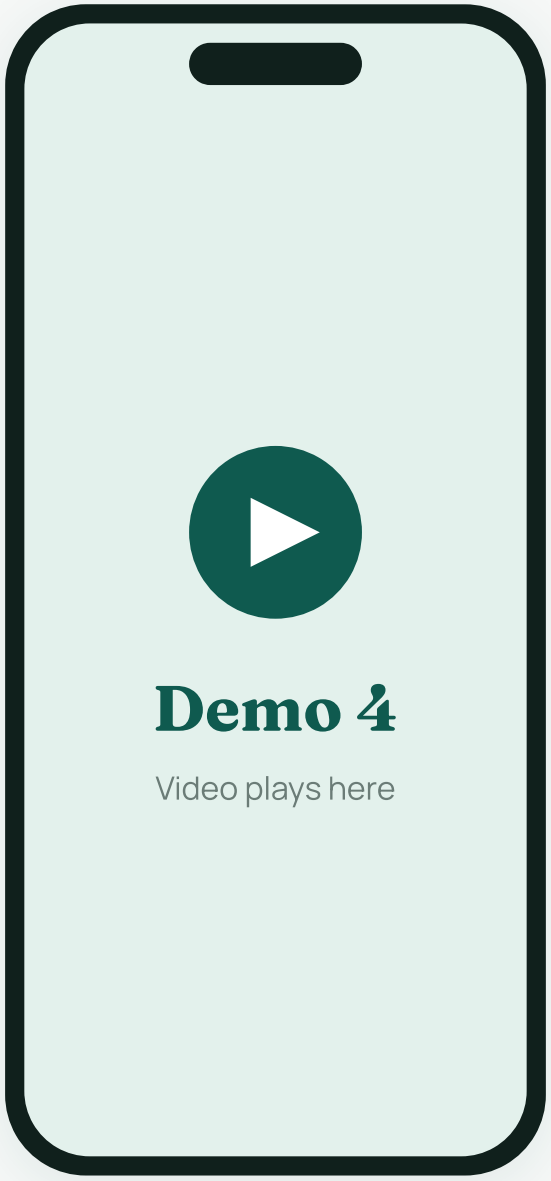

§

Documents, summarized

Quick summaries of attachments, like contract highlights.

Summaries help you read faster. They are not legal advice.

MEMORY

What Voxa remembers.

It learns your preferences, like how you like your captions or when you take showings.

See

Every preference, in one list.

Edit

Change any of them.

Forget

Remove one, or all.

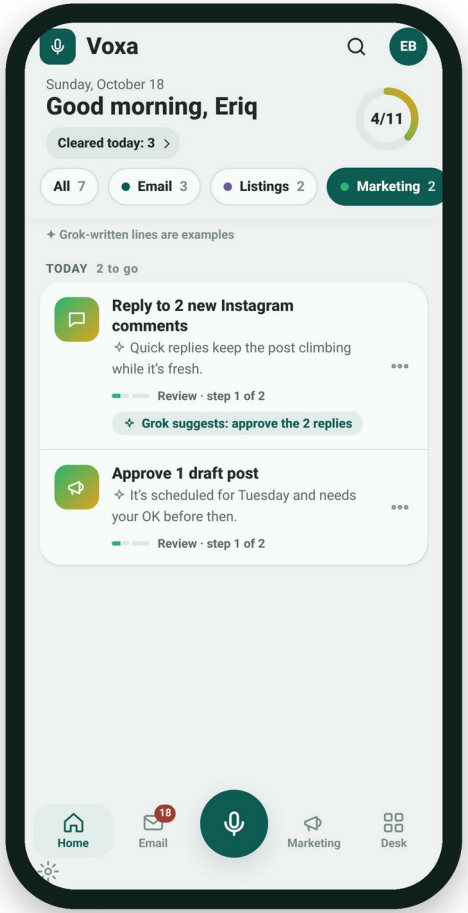

Memory storage is off by default. You turn it on.

DESIGN PREVIEW

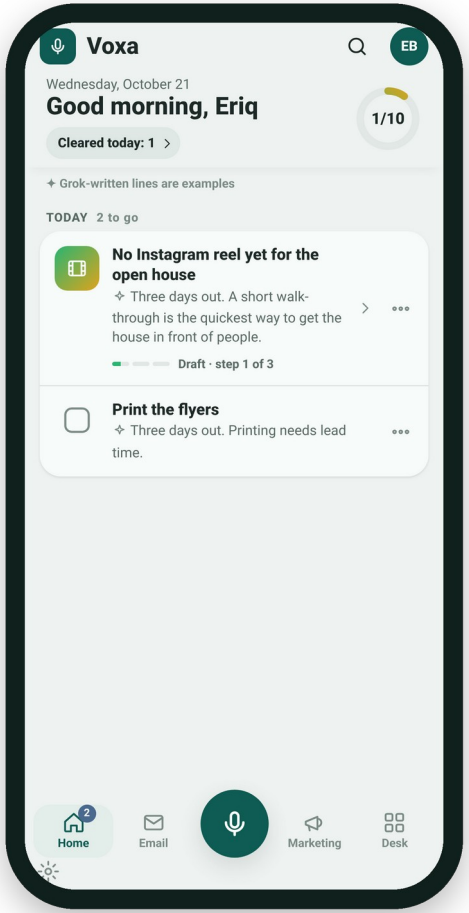

Coming next.

Not shipped yet. These are prototype screens with example data.

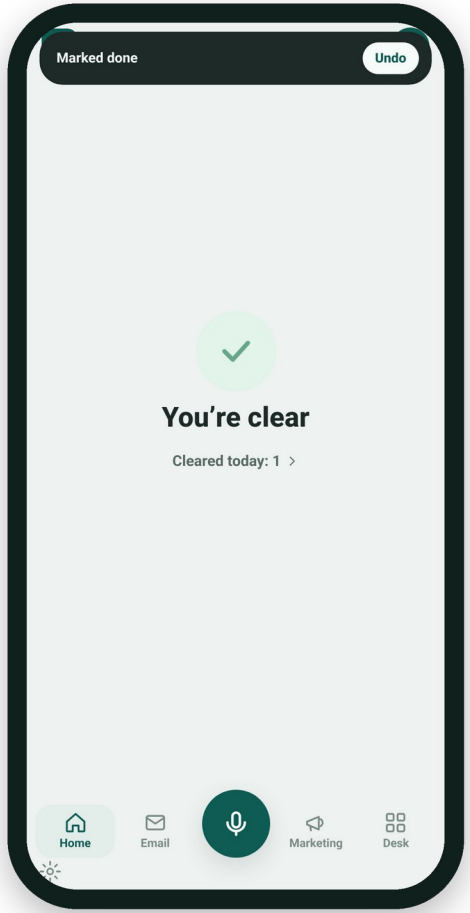

- **Home**
  Everything that needs you today.
- **Open house**
  Prep and follow-up, on time.
- **Showings**
  Check it off, with Undo.

HOW IT WORKS

Speak. Voxa works. You approve.

Tap the mic and say it the way you would say it.

Drafts, research, sorting and reminders.

Nothing goes out until you tap.

What you say is sent to our AI provider so it can reply.
